SKILLS

Frontend

- React (Hooks, React Router, Redux Toolkit)
- JavaScript (ES6+), TypeScript
- Vue 3 (Composition API, Vue Router, Pinia)
- Axios / Fetch
- HTML5, CSS3, SCSS, BEM

Build & Tooling

- Vite, Webpack
- Git, Git Flow

Architecture & Patterns

- REST API, WebSockets
- Feature-Sliced Design (FSD)
- SOLID, KISS
- OOP

LANGUAGE

- English(B1/B2)
- Spanish(A2)

WORK EXPERIENCE

Frontend developer

Createx | April 2025 - Current

- Developed multi-functional web applications (quizzes, landing pages, paywalls) with a focus on speed and stability. Optimized performance: reduced bundle size by 18%, accelerated page loading by 29% through code-splitting, lazy loading, and memoization.
- Implemented a PWA (offline mode, cache strategies, SW auto-update), increasing the PWA's Lighthouse score to 90+
- Integrated Stripe: a full-fledged payment flow, server-side and client-side webhooks, validation checks, and payment status processing.
- Developed an interactive family tree module for iOS: rendering a large number of nodes, optimizing calculations, smooth animations, and custom interaction scenarios.
- Migrated projects from Next.js to Vue 3: porting functionality, routing, rebuilding the architecture, and improving performance.

Software Developer

CJSC "CTV" | February 2023 - August 2025

- Built and improved a full-stack web application with a strong focus on performance, scalability, and user experience, ensuring stable operation under increasing traffic.
- Delivered new features end-to-end, integrating external APIs and creating interactive, responsive UI components that improved user engagement.
- Optimized application performance, reducing load times by 25–35% and streamlining backend logic to lower server response time.
- Enhanced code quality through systematic debugging, writing testable modules, and performing cross-platform optimizations to ensure consistent behavior across devices.
- Improved SEO and accessibility, leading to higher Lighthouse scores and a measurable increase in organic traffic and user retention.

EDUCATION

BSU A. D. Sakharov International State Environmental Institute
Bachelor's Degree in Software Engineering (Software Engineer–Ecologist)
2019 – 2023
GPA: 7.2
